LABEL WITH SEQUENTIAL NUMBERS

Optimizing inventories.

LABEL WITH SEQUENTIAL NUMBERS.

In warehouse management, information is the cornerstone of efficiency.
However, information must be easy to identify, clear and precise.

The Aro Group's sequentially numbered labels make it easier to identify, already in the production line, labeled parts, regardless whether they are discarded.
The number is printed by a dedicated machine equipped with a full-control system, so we can guarantee that only compliant labels will be numbered.

LABEL WITH SEQUENTIAL NUMBERS **[1]**
