NO-LABEL-LOOK LABEL

Low-cost silkscreen printing.

NO-LABEL-LOOK LABEL.

To achieve a direct printing effect on the packaging, with excellent quality and lower costs, we developed the no-label-look label.
This label of the Aro Group faithfully replicates the effect of direct printing or screen printing, because it is made on a clear material, which, when applied to the packaging, keeps the bottom invisible and highlights only the textual and graphic elements.
This way, a more consistent look and a very elegant and quality result can be achieved.
