NO-LABEL-LOOK LABELS

Low-cost silkscreen-like printing.

NO-LABEL-LOOK LABELS.

To achieve subtle decoration, which perfectly fits the packaging and is elegant at the same time, we have developed the no-label-look label.
This label produced by the Aro Group, made of extra-clear material, accurately replicates the effect of direct printing on the packaging.

This label is less expensive than direct decoration, with an extra benefit: the possibility of combining different printing techniques to obtain extraordinary decorative effects and give more freedom in graphic design.
