

THERMAL PAPER ROLLS FOR WAIT MANAGEMENT SYSTEMS

Daily use and great convenience.

THERMAL PAPER ROLLS FOR WAIT MANAGEMENT SYSTEMS.

Regulating waits is an activity that plays an important role in customer satisfaction in the large-scale retail trade. Simplicity and efficiency must be guaranteed even in a simple gesture such as tearing off a number tag or replacing a roll of numbers.

For this reason, choosing a reliable product is fundamental.

The Aro Group's thermal paper rolls for wait management systems is a user-friendly option for customers and operators. They are made of neutral or printed thermal paper, are fully customizable and can be overprinted with variable data.
